Work Experience

Teaching

UFF(2010-2012), PUC-Rio (2015), UBC (2017-2022) and Corpus Christi College(2022)

I am currently an instructor at the Corpus Christi College, where I teach Introductory Micro Economics. In the past, I have worked as teaching assistant at courses such as econometrics, microeconomics and other math/statistics heavy courses.

Research Assistant

Climate Policy Initiative (2016-2017) and UBC (2018-2022)

Researcher in multiple projects. Work included: gathering data (data scraping, search for partnerships, etc), cleaning it, evaluating and adapting methods to identify causal effects, and multiple presentations to partners and senior leadership that could properly show results.

Studied topics include the impact of hydroelectric dams in deforestation, the impact of civil war in ethnic identification, and the effects of intra-family marriage in social capital, among others.

Economist

Petrobras(2013)

I worked at the International HR sector. Projects revolved around the remuneration and work policy for Petrobras' subsidiaries out of Brazil. The tasks involved varied within a large range. They included, for example, making international price level comparisons, the study of Libyan labor law, and planning the process of closing Petrobras' subsidiary at the country, reconciling competing interests.
